## Town Council.

### Councillors Present Their Estimates.

A regular meeting of the Town Council held in the Council Chamber on Thursday evening last, was attended by the following: Mayor Robertson, Councillors, Dolmage, Cotton, Beattie, Reid, Hulse and Bratton.

Accounts were presented as follows:  
H. L. Ewing, Labor ..... \$ 5.00  
Telephone ..... 1.00  
Sewerage & Co. .... 1.75  
D. V. Bell, Labor ..... 40.20  
Regulator ..... 65.00  
Gas fittings ..... 10.50

These were ordered paid if correct. An application from P. W. Brown, assessor, for \$150.00 on account of his salary was granted, as was also a requisition from the School Board for \$1000.

An application from Wm. Waddell for cemetery deed to lot 3, block 144, was also granted.

The Mayor and Secretary were authorized to execute transfer of lots 10 and 11, block 4, plan 2419A, from Bessie Ann James to R. S. Beattie.

Estimates for the year 1917 were presented by the various committees and placed on record as follows:

MULDO WORKS AND PROPERTY  
Foreman's salary, ..... \$ 300.00  
New Sidewalks, ..... 200.00  
Repairs, sidewalks ..... 200.00  
Building rent, ..... 150.00  
Horse feed, shoeing, etc., ..... 125.00  
Labor on streets, ..... 100.00  
Overdraft, 1916, ..... 247.00  
**\$1322.00**

### GAS SYSTEM

Supt's salary, ..... \$ 800.00  
Street lamps, ..... 90.00  
Mantles, ..... 80.00  
Globes, ..... 40.00  
Motors, ..... 200.00  
New Services, ..... 150.00  
Pipe, ..... 400.00  
Crossing C.P.R. track ..... 100.00  
Digging C.P.R. right-of-way ..... 20.00  
Digging streets, ..... 75.00  
Changes at Well, ..... 200.00  
Reg. and valves, ..... 200.00  
Reg. House, ..... 75.00  
**\$2450.00**

### LICENSE AND POLICE

Salary, ..... \$ 300.00  
Uniform, ..... 50.00  
Incidentals, ..... 150.00  
**\$500.00**

### ASSESSMENT

Salary, ..... \$ 250.00  
Printing and advertising ..... 50.00  
**\$300.00**

### PIRE, WATER AND LIGHT

3 week citizens, ..... \$1200.00  
Connections for citizens, ..... 200.00  
Cost of pumping water, ..... 100.00  
Batteries and oil, ..... 20.00  
New water trough ..... 40.00  
Rental water well, ..... 100.00  
Incidentals, ..... 50.00  
Overdrawn, 1916 ..... 357.00  
**\$2127.00**

### HEALTH AND PARK

Park, ..... \$ 300.00  
Board of Health, ..... 100.00  
**\$400.00**

### GRANTS

Board of Trade, ..... \$250.00  
GENERAL FINANCE  
Secretary-Treasurer, salary, \$1500.00

## A Big Merger.

It appears possible that the big irrigation project of the Southern Alberta Land Co. will eventually be completed. A movement is now on foot to merge the Southern Alberta Land Co. and the Canadian Wheatlands Co. and the Alberta Land Co. into one. A million dollars of new capital will be provided for the purpose of further development. These three properties were originally floated under the Grenfell auspices, comprising 530,000 acres, and in 1911 passed into the hands of the receiver.

It is understood that the new company will be called the Canadian Land Corporation. It has an authorized capital (says a dispatch from London, England) of two and one-quarter millions sterling, and a debenture issue of 15,000 pounds sterling. Permission has now been given to raise 25,000 pounds by special assessment.

A meeting is being held in London this week to consider the scheme. Its outcome will be particularly interesting to us at Bow Island. The irrigation of a large tract of country to the north of us with its inevitable settlement cannot but be regarded by us with considerable favor.

Notice is given that, by order of the Minister of Education, the boundaries of the Fairlight School District No. 200 of the Province of Alberta have been altered by withdrawing therefrom the following lands, namely: The northwest quarter of Section 18 and the south half of Section 10 in Township 10 Range 9 west of the Fourth Meridian; and that from and after the date hereof the said district shall comprise the following lands, namely: Sections 4, 5, 6, 7, 8, 9, 10, 15, 16, 17, 20, 21, 22, 27 and 28, and the south half and north-east quarter of Section 18 in Township 10 Range 9 west of the Fourth Meridian.

Solicitors salary, ..... 300.00  
Auditors, ..... 175.00  
Printing, postage, books, ..... 500.00  
Rent, audit, etc., ..... 40.00  
Insurance, ..... 500.00  
Incidentals, ..... 610.00  
Over expended, 1916, ..... \$3650.00

**\$1925.50**

Public Schools, ..... \$1500.00

Est. revenue from Nat. Gas, \$7000.00

Letter from Miss F. E. Baker in matter of rebate on sidewalks was read. The Council considered the matter closed as per resolution No. 8, of March 15th, 1917.

The Secretary-Treasurer, in view of the increasing work and responsibility asked the Council to consider a raise of salary.

Moved that the Secretary-Treasurer's salary be increased to \$125.00 per month, the same to start from January 1st, 1917.

Matter of addition to the Town House for use of Provincial Police was brought before the Council, and it was decided that it was not advisable to have the same done.

## The New Chevrolet

MODEL 490-A

One-man Top, Sloping Windshield, Demountable Rims, Tire Holder, Robe, Foot Rail, and many other features. Color, Dark Green.

Price \$750 f.o.b. Oshawa.

BOW ISLAND

Agent for Bow Island, Winnifred, Whitla, Burdett and Grassy Lake.

## Food Control in Great Britain

Tiesome of Steps Taken by the Government to Ensure Proper Supply

Growing interest is being shown all over the Dominion in the food control of Great Britain. The following facts show what has been done in that country in Great Britain. On September 10, 1914, a little more than a month after the war broke out, a proclamation was issued prohibiting the importation of sugar from any European port. Later the government created a royal commission on the sugar supply. This commission went into the market and bought large quantities of raw sugar at various prices. On October 26, 1914, the government's control was completed by the issuance of a proclamation forbidding the importation of sugar from any foreign country without a special license from the royal commission on the sugar supply.

In October, 1914, the government appointed a royal commission on wheat. This commission was given full power to take all steps necessary to insure adequate and regular supplies of wheat and flour and the importation of all grain into the United Kingdom.

Recently an order known as the milling order was issued by the board of trade, fixing according to a certain schedule the percentages of flour that must be extracted from wheat of various qualities. The order required that on and after January 1, 1917, only flour milled in accordance with the schedule might be used for making bread. Flour mills were also required to make periodic returns of stocks of wheat.

On November 27, the government announced that it had decided to appoint a committee to (1) Prevent the waste or unnecessary destruction of any specified article; (2) Restrict and prescribe the use of any article.

(3) Regulate the manufacture and production of articles so that the public may be supplied with those articles in the form most suitable in the circumstances.

(4) Direct the mode of sale and distribution of articles.

(5) Regulate the market operations in an article "with a view to preventing any unreasonable inflation of the price."

(6) Prevent the sale of an article at a price exceeding an amount named.

(7) Require the owners of stock articles to place them at the disposal of the board on terms to be determined by arbitration in default of agreement.

(8) Cancel a detailed return to be made of available supplies.

(9) Enter premises in which articles are made, stored, manufactured, or produced, and examine the stock and note the accuracy of any return that may have been made.

Lord Devonport, who appointed the food controller.

At this juncture, R. E. Prothero, the president of the board of agriculture, came forward with comprehensive farming plans to increase the home production of food. Under the terms of the plan, the board of agriculture obtained power to enter upon any idle land and cultivate it with or without the owner's consent. Of the 27,000,000 acres of agricultural land in Great Britain, more than 18,000,000 is given over to grazing, while less than one-fifth is used for raising crops. The board of agriculture has determined that as much of the arable land as is available shall be ploughed up and planted in grain crops.

In addition to perhaps 100,000 women who are now working on the land, German prisoners of war who are interested aliens have been put to work cultivating the soil, and some of the skilled ploughmen have been brought back from the front.

The first attempt at rationing was

## Scrupulous Cleanliness

is the one cast-iron rule in every corner of our bakeries.

## Sonor-Biscuit

are just as clean as they look, and as wholesome as they are delicious.

In Packages Only.

Equally pure and just the thing for your children, are our

ROYAL ARROWROOT BISCUITS

North-West Biscuit Co., Limited  
EDMONTON - ALTA.

W. N. U. 1159

made on February 3, 1917, when the food controller issued an appeal to the public to limit the consumption of bread, meat and sugar, as follows: "Meat, poultry, fish, game, ham, sausage, game, rabbits, poultry and tinned meat. The ration of two pounds of meat per head of stock, one pound of fish per head of stock, one pound of game per head of stock, and one pound of tinned meat per head of stock. Up to the present rationing is voluntary."

On March 23, the food controller issued a very drastic order for the defence of the realm act, declaring it to be a punishable offence for a merchant, in connection with the proposed sale of any article of food, to impose a condition involving the purchase of any other article. This rule put an end to the practice of insisting that something else, usually tea, should be purchased before sugar was supplied.

## Vegetable Garden

Valuable Information Secured by Government Experimental Stations

Experiments to determine the best varieties of vegetables to grow have been carried out by the government experimental stations for many years. Seed has been secured each year from the best growers in the country. As a result, the lists of vegetables to be grown in the garden are now better than ever before.

Farm reports are a good guide to the gardener in purchasing his seeds.

During the past seasons additional experiments have been added, such as the growing of vegetables in certain vegetable beds, best dates to sow, etc.

Experiments on the Scott Station with garden peas have proven that the earwigs can fully be imported seed, and that home grown peas can be raised in the garden.

Four different varieties of peas, each having a different season for maturity, have been raised in the garden for green peas for household use by the gardeners.

"Homegrown" peas are a good variety at week intervals for four weeks. Trefling peas have been found to be a better variety for picking by about one-half. This is a good variety for the garden.

Chickens were fastened to stakes driven in the ground to use as a trellis.

Experiments with onions have shown that the best way to grow them is by using the seed freely; at least one hundred seeds, sown in a narrow row, will give a full crop.

These results indicate that onions grown in the garden are the best variety of the garden.

"Homegrown" onions are a good variety of the garden.

Experiments with potatoes have shown that the best way to grow them is by using the seed freely; at least one hundred seeds, sown in a narrow row, will give a full crop.

These results indicate that potatoes grown in the garden are the best variety of the garden.

"Homegrown" potatoes are a good variety of the garden.

Experiments with cabbages have shown that the best way to grow them is by using the seed freely; at least one hundred seeds, sown in a narrow row, will give a full crop.

These results indicate that cabbages grown in the garden are the best variety of the garden.

"Homegrown" cabbages are a good variety of the garden.

Experiments with carrots have shown that the best way to grow them is by using the seed freely; at least one hundred seeds, sown in a narrow row, will give a full crop.

These results indicate that carrots grown in the garden are the best variety of the garden.

"Homegrown" carrots are a good variety of the garden.

Experiments with radishes have shown that the best way to grow them is by using the seed freely; at least one hundred seeds, sown in a narrow row, will give a full crop.

These results indicate that radishes grown in the garden are the best variety of the garden.

"Homegrown" radishes are a good variety of the garden.

Experiments with turnips have shown that the best way to grow them is by using the seed freely; at least one hundred seeds, sown in a narrow row, will give a full crop.

These results indicate that turnips grown in the garden are the best variety of the garden.

"Homegrown" turnips are a good variety of the garden.

Experiments with rutabagas have shown that the best way to grow them is by using the seed freely; at least one hundred seeds, sown in a narrow row, will give a full crop.

These results indicate that rutabagas grown in the garden are the best variety of the garden.

"Homegrown" rutabagas are a good variety of the garden.

Experiments with kohlrabi have shown that the best way to grow them is by using the seed freely; at least one hundred seeds, sown in a narrow row, will give a full crop.

These results indicate that kohlrabi grown in the garden are the best variety of the garden.

"Homegrown" kohlrabi are a good variety of the garden.

Experiments with cauliflower have shown that the best way to grow them is by using the seed freely; at least one hundred seeds, sown in a narrow row, will give a full crop.

These results indicate that cauliflower grown in the garden are the best variety of the garden.

"Homegrown" cauliflower are a good variety of the garden.

## Marketing Farm Produce

By Mrs. McNeill, Headingley, Manitoba.

(Continued)

Our own Postal authorities here are busy extending the rural system, and on the routes already established, there is quite an increasing business in postal packages—eggs, butter, fowl, turkeys, cut of meat, etc. All go quite nicely by mail. The cost is less than express and our authorities would extend the limit of cheap rate from 20 miles to say, 50, there would be a much bigger trade done.

I may mention the success of some of my neighbors with the Parcel Post. One woman has been shipping her laid eggs all winter by mail. In January she shipped sixty dozen, and she cannot possibly supply the demand. In summer she sent milled chicken for sale, and her orders were sent to the coast and she cannot possibly supply the demand.

Another woman sent roasts of pork and cuts of beef, sausage, meat, etc., and several others shipped eggs. The success of these shipments, which says a great deal for our Postal Service, is due to the fact that we have some experience in the use of Parcel Post.

## Dairying in the West

Development of This Industry in Great Strides

Until the last two or three years the attitude of the eastern dairy farmer toward the "bald" dairy industry of the western provinces was one of benevolent interest. The eastern farmer had long been taught to regard the prairie provinces as a great grain growing districts, that might gradually turn to beef cattle, but which dairy farming would not do, and a home for several decades to come.

British Columbia, he regarded as a fruit province. Every year the eastern dairyman shipped car loads of butter and cheese, for the western consumption. Eastern dairymen looked on the west as a market that was just naturally belonged to them.

Now the easterner has received an awakening. The tables have been turned on him. Last year several car loads of butter were shipped from Alberta to Toronto and Montreal. The west offers to the dairy breeder a better than that of good eastern creamery butter. At the same time the eastern butter trade, with the west, is a thing of the past. The western dairymen are doing more to meet their own needs, and that they can't supply, a market that is growing from west to east.

There is a great field for the west to increase on eastern markets. There is a great field for the west to increase on eastern markets. There is a great field for the west to increase on eastern markets.

## Thrift in Forest Fires

Sportsmen Can Help in Preventing Waste from Fire Losses

There are estimated to be 10,000 forest fires in Canada every year of more or less destruction. Nine tenths are set by human hands, and the damage runs from four to ten millions of dollars, not counting damage to soil, to the value of watered areas and many other factors.

"Thrift in forest fires" is a new movement which the Canadian Forestry Association has started among the guides and campers.

Sportsmen of Canada with a view to cutting down the country's timber losses in 1917. As is well known, the present-day causes of forest fires are not the railways as much as the use of matches, campfires, etc., have caused some of the worst conflagrations in history. During the months of May and June, before the fire season is well under way, this year, thousands of outdoors men are being asked by the cooperation of the newspaper publishers of Canada to make 1917 a year of thrift in the forest. Not only in Canada, but in the United States, a valuable supply of timber seriously depleted in time when it should be protected and improved by every possible means. Throwing lighted tobacco or matches into the forest is considered one of the worst crimes of the forest.

No camp fire should be left this year until it is "dead out." A few extra pails of water or spades of sand will make this point clear. No fire should be left unattended. No fire should be left unattended. No fire should be left unattended.

No fire should be left unattended. No fire should be left unattended. No fire should be left unattended.

No fire should be left unattended. No fire should be left unattended. No fire should be left unattended.

SYNOPSIS OF CANADIAN NORTH  
WEST LAND REGULATIONS.

THE sole holder of a family, or any  
other male over 18 years old, may  
be considered a homestead claimant in  
Manitoba, Saskatchewan or Alberta. Applicant  
must appear in person before the Dominion  
Land Office or Sub-Agent for the District.  
Entry by proxy may be made at any Dominion Land Office  
and sub-agent, on certain conditions.

Duties—500 months' residence upon  
cultivation of the land in any one  
three years. A homestead may live  
within nine miles of the homestead on  
a farm of at least 80 acres, on certain  
conditions. A homestead house is  
required except where residence is per-  
formed in the vicinity.

Live stock may be submitted for  
valuation and a certain condition.  
In certain districts a homestead in  
good standing may present a quarter  
section alongside its homestead. Price  
\$250 per acre.

## Note &amp; Comment

The Liberal government of Alberta  
has been sustained. Endorsed by a  
convincing majority of the voters  
of this province Premier Sifton has a  
renewed lease of office. If the Sifton  
government is "cracked," as some  
wish to imply, this clearly is not the  
opinion of the majority. The govern-  
ment may have made mistakes, it  
probably has, but these mistakes do  
not constitute wrong-doing. Judging  
from the knowledge that we possess  
it has performed its duties and ful-  
filled its obligations fairly satisfac-  
torily. The method adopted in the  
recent election we do not agree with,  
but the time allowed between dissolu-  
tion and election day was short  
to allow the issues at stake to be  
fully and freely discussed. This, how-  
ever, is now an old dog practiced  
by both parties, and probably in that  
sense the Sifton government is no  
more to be blamed than another.

The time will come when these old  
political tricks will have to be dis-  
carded. Partisan, thank goodness, is  
on the decline, and the day is not far  
distant when the old method of vot-  
ing for party irrespective of its aims  
or policy will have been consigned to  
the scrap-heap.

The electors are becoming awakened  
more and more to the fact that a  
political campaign can be run by a bunch  
of political tricksters. To be success-  
fully governed and have the affairs of  
the province administered in a proper  
businesslike way, we must have good  
business men.

As it stands, the present provincial  
government is the best obtainable.  
The Opposition was weak, very weak.  
It has proved itself so both in the  
House and during the recent election.  
Therefore, on its record, obvious-  
ly it was unsafe to trust it with the  
reins of government.

"Votes for Women," has been a big  
factor in old country politics for some  
time, and but for the fact that it  
would have been a very serious crisis  
confronting the British parliament.  
Here, "Votes for Women" has been  
undoubtedly the greatest, the most  
furious, and in accord, apparently,  
with the whole electorate. In the  
recent election it was largely taken  
advantage of (at least here in Alberta),  
and the probabilities are that the  
female vote influenced the result of  
the election very considerably. We  
are glad to see it. Nothing but good  
can come out of it. We believe that  
the influence of the women  
will have a great effect upon  
matters affecting our province, and  
also we hope upon those conducting  
them.

Time works wonders, and one of the  
greatest wonders of time's changes  
will be that which will bring about a  
reform in our political life. "Votes  
for Women" will hasten it.

We print in another column a com-  
munication from the Red Cross Soci-  
ety relative to July 2nd, being set  
aside as "Red Cross Day." This Bow  
Island has already decided to do  
what remains to be done for every man,  
woman and child to endeavour to make  
it the financial success that it de-  
serves. We are but a unit in the most  
gigantic struggle that was ever waged.  
We are but a unit when compared  
with the hundreds of thousands self-  
sacrificing men and women engaged in  
alleviating the sufferings of our de-  
voted fellow-countrymen. We, how-  
ever, have our part. Let us do it  
with thoroughness and with a  
sincere self-consciousness that only  
a knowledge of our duty conveys. What  
that duty is may possibly be more  
forcibly brought home to us by the  
contents of a letter which we have  
now lying upon the editorial desk.  
The writer was expected to drop off  
here on his way back from the front,  
but for obvious reasons was unable to  
do so. He says—"I could have been  
in the front in Alberta but I have  
been better, but as a matter of fact  
I had to be drafted twice a day  
from the front and it still has  
now. The end of June should and may  
be the end of the war. The end of  
old bore, and then it will have to  
be held up and get ready for a few  
months before being operated upon  
for repair of the nerve. Massage will  
be required all the time, and finally  
if these operations have been success-  
ful I shall have an attempt at cut-  
ting an elbow joint in the shoulder  
mass of bone which is there." Here's  
a letter from the front. One that will  
bring home to us the magnitude of  
the work and months of suffering  
and which will require during the  
whole of that time very careful

treatment indeed. And yet it is only  
one. If anyone questions the use-  
fulness of the Red Cross they have only  
to think of the thousands of other  
cases requiring similar treatment, a  
thought of which we are sure will  
be quite sufficient to enlist their  
sympathy and active assistance.

A Board of Trade meeting held on  
Friday evening last was rendered re-  
markable by the number of empty  
chairs. As we looked down the long  
hall and saw the empty spaces which  
should have been occupied by his  
business contacts, some of his long  
lines seemed almost overpowering.  
Public interest demanded a public  
spirit. Judging from indications, we  
should say that Bow Island has no  
public interests, and still less of public  
spirit—unless it's in some corner  
where the prohibition officer cannot  
get it.

The Review has received recently  
number of interesting pamphlets re-  
lating to various branches of agricul-  
ture. These are being sent out  
by the Department of Agriculture at  
Ottawa. To give one some idea of  
their diversified nature a few of the  
titles are given—"Recommended var-  
ieties of field roots," "Field beans in  
Canada," "The dairy cow," "Notes  
on the cultivation of some staple  
vegetables." This latter is one that  
would be useful to some of our am-  
ateur gardeners.

The secretary of the Bow Island  
Board of Trade, has taken up with  
the C.P.R. the matter of increasing the  
length of the unloading platform at  
this point. The facilities for unloading  
here at the present time are very poor,  
and have called forth frequent  
and numerous complaints from ship-  
pers. If the C.P.R. will mind to en-  
quire into the state of affairs here, we  
are sure that they will readily concede  
the reasonableness of the request made.

Successful Dance.

The dance given on Monday  
night in the Oddfellows' hall for the  
interests of the Women's  
Institute was a very successful  
affair indeed, both from a financial  
and social standpoint. A  
sum of about \$84 was realized.  
After deducting expenses, the  
balance will be devoted to help  
defray the expense of building a  
roof room, the cause of which  
is being strongly advocated by  
two ladies, comprising members  
of the Women's Institute. The  
dance given Monday night was  
arranged by the ladies captained  
by Mrs. Dulmage.

Picnic at Winnifred.

The posters are out for the  
fifth annual picnic of the  
Winnifred Agricultural Society.  
This event will take place on  
the society's new grounds, ad-  
joining Winnifred on the north  
side, on Friday, June 22nd. A  
fine program has been arranged,  
and with music throughout  
the day the many visitors who  
are sure to be present will have  
a thoroughly enjoyable day. A  
strong contingent from Bow Is-  
land is expected.

NOTICE TO CLAIMANTS  
AND CREDITORS.

IN THE DISTRICT COURT OF THE  
DISTRICT OF MEDICINE HAT  
IN THE ESTATE OF JOHN  
EDWARD DUNLOP, DECEASED.

NOTICE IS HEREBY GIVEN that all  
persons having claims upon the  
estate of John Edward Dunlop who  
died on the 28th day of July,  
1910, and who was last seen in  
Alberta, may present their claims  
required to be paid to the undersigned  
for the Administrator of the estate  
of John Edward Dunlop, on or before  
the 28th day of JULY, A. D. 1911, full notice of the claims  
and of any securities held by them  
shall be rendered, and that there-  
after to distribute the assets of the  
deceased among the parties entitled  
thereof having regard only to the  
claims of which better has been ac-  
cused with the undersigned.

## Great Building Activity at Burdett

## BIG CELEBRATION ARRANGED FOR JULY FOURTH.

The big crop that have been obtained in this district, and the great prosperity occasioned thereby, have been noted before in these columns. Nowhere can this prosperity be more or better observed than in the splendid country homes that have now replaced the former habitations of the settlers. Big barns, granaries, and commodious farmhouses now dot the country thickly, and what is just as pleasant, perhaps are the fine fields of grain that are now giving early promise of coming to maturity.

This picture of progress is just as true of the town. After an absence of two or three weeks one returns to find a wonderful transformation. Buildings, good substantial ones, are going up everywhere and several new businesses are commencing.

Directly opposite the depot, Mr. Emerson Brown has all but completed a large hotel. It has twenty-four rooms and each room will be furnished with hot and cold water. Mr. Brown intends to furnish throughout in the most modern style, and those who know his methods say that it will probably be done. The hotel is ideally situated and to Burdett should prove a great boon.

Alongside the hotel, Mr. Brown is also erecting two pretty houses for the occupants of which should consider themselves fortunate in possessing them.

Proceeding a little farther, one comes upon a huge building being erected by Messrs. Maxwell and Hinchey for a post-hall. It is forty feet long by thirty-six feet wide. The upper portion will be used as a livery-house.

Between this and Hinchey's, one new business place is going in. O. B. Lyons of Grassy Lake is about to erect a handsome store there and will equip it with a large and complete stock of all kinds of hardware goods.

Changing the road the information is given that Geo. Leman has just completed a deal, wherein he leases his building for a term of five years for a restaurant. He himself will put up another and more commodious building alongside for his next market, the business extent of which now almost equals his to.

Yet another store is to be put up between A. Waddell's office and the garage. A party from Taber, it is understood, will put in grocery store there.

John Brown, the local photographer and house decorator, has been selected with the idea that it was about time he got busy and provided more room for his increased trade. Consequently, it is not surprising to hear that the studio and workshop which he intends to erect will be a first-class one. This will be built near the Southern Alberta Hardware Co.

Joe. Neil, the well-known sheep-raiser living south of town, was in this week. He reports a very successful lambing season, and his losses are slight. He expects shearing to start about the 15th.

Messrs. A. Waddell, E. C. Jackson,

Roy Lindvall and Jesse Bakken arrived to Lethbridge last Tuesday and found the roads in good shape. They returned the following day reporting a very enjoyable trip.

Bob Brownell has secured the contract for repainting the buildings of the gas company north of town.

Reports are coming in from all over the district of good rains and the farmers are highly pleased with crop prospects.

Plans and specifications for the new Consolidated School are now in the hands of the secretary, A. Waddell, and it is expected that an advertisement will appear in the Calgary and Lethbridge dailies next week asking for tenders to build. The architect, Mr. Pettifer, is expected down this week to make the final arrangements.

The energetic way in which the Trustees have carried their work out is a topic of much discussion locally, and it is felt that considerable credit is due to them for the vigorous manner with which they have pursued this important project.

Players will have an opportunity on the 20th of being introduced to "Mutt and Jeff" at Icker's new hall.

Burdett's celebration of the 10th of July this year will be characterized by a very ambitious program. The committee has spent considerable time in its preparation and the great thing which is expected to visit the town on that date will find something to interest and amuse them throughout the day. The officers are—Mr. A. H. Davis, president; W. C. Henderson, vice-president; M. Murphy, secretary. The finance committee comprises the above officers and C. T. McKinnon and R. W. Burke. There will be basketball games, foot races, horse races, and numerous other events. A dance will take place in the evening, and the committee promises for this year extra attractions.

The trustees of the C. P. R. depot are now enjoying up splendidly. It is generally admitted by visitors to Burdett that here is one of the "nestled" little spots along the line. I should like to take them one from C. P. R. and display a little energy in this direction also. Much can be done along this line towards beautifying our little town.

The local bank has recently changed its quarters, and is now occupying the building lately vacated by Mrs. Falls on Main Street. Considerable improvement has been effected in the interior, and the staff has now as well-appointed an office as could be wished.

The National Elevator Co. is engaged here in erecting a large elevator, some say of 5,000 capacity. A large gang of men are working at it and making rapid progress.

Geo. Cropley, our local carpenter,

has put up a new garage and workshop combined.

Rev. Bird, for some time stationed here, has been transferred to the Wainwright district. A large number of friends will regret his departure very much.

Mr. Ferguson, of the local branch of the Standard Bank of Canada, has been promoted to the Lethbridge branch.

K. Brown has been making a business visit to Lethbridge this week.

Mr. W. J. Maxwell is paying a visit to Banff for the benefit of his health.

The business at the Telephone Centre, we notice has increased to such an extent as to compel the proprietor, Mr. Geo. H. Johnston, to make a considerable addition to his premises.

Mrs. M. A. Bowe, with her two daughters, Miss Regis and Miss Magina, are visiting with friends down east.

## Flowering Valley.

Seven miles north-east of Wainwright

May 28th, 1917.

Mr. S. H. Breathour has just purchased an elegant new 1908 Ford car, a new driver, Mr. Doherty certainly takes the bun.

Your correspondent had a ride in Mr. Hugh Doherty's new Ford auto, Saturday. It cost \$1,200, and a new driver, Mr. Doherty certainly takes the bun. Last Saturday eve's callers at the teacher's were Miss Lottie Smith and Will Bryant, Miss Thelma White and Mr. G. H. Smith, Miss M. A. Bowe (of Wainwright), and Mr. Herbert Bryant were out for a saddle ride and Thelma White and Guy Shanon on their way to the river.

Mr. Wilbur Smith, brother of Mr. Walter Smith, is seriously ill.

Mr. Philip Rapson, Sr., has returned from Medicine Hat.

Mr. Meigs for years' C.P.R. agent at Wainwright has resigned some time ago much to the regret of the public, and has moved to his home at 60 miles north of Edmonton. Mr. Meigs was the secretary of the local lodge of Oddfellows, a past Grand, and will be much missed by his legion of friends in this community. He is succeeded by Mr. Grant, formerly agent at Box Island.

Mr. Hawkey and wife, son-in-law and daughter, respectively of Mr. Ed. Fren, have recently arrived from Sask. Mr. Hawkey, and are guests of their relatives, Mr. S. H. Breathour and Mr. Theo. Rapson. More to follow.

Mr. Roy Colthorpe, Mr. and Mrs. A. M. Peterson, Miss Wilbur Smith and Mr. Theo. Rapson were Wainwright visitors, Saturday.

Mr. Otter DuRand, through his horse running away, badly smashed up his buggy recently.

Fishing is poor at the river just at present as the river is still too high.

A light shower fell Saturday and the fields have now assumed a pretty green.

The pupils of our school had a delightful field excursion Friday afternoon, going to the river and examining the fauna and flora, etc., in that region.

The Cormorant school will resume shortly.

Mr. Collins, teacher of Rocky Lake was with Mr. Scott a Wainwright visitor last Saturday.

Mr. Alex Sanderson was a business visitor to Cardale last week, going there to purchase an up-to-date tractor. Mr. Sanderson intends taking the machine to Weyburn, where he has a fine farm. He has three quarter sections under cultivation in our district.

Mr. Zahnizer, Mr. and Mrs. Walter Stillb, accompanied by Miss Annie Nathan motored over to our teacher's (Mr. Stillb's) and had dinner there last Thursday.

Mr. Stillb has seeded 130 acres of Russian Ryegrass and Mr. Zahnizer has practically put in his big farm of 1400 acres. The latter now occupies his fine \$10,000 house, and his wife Mrs. Zahnizer is again at home the Spanish family from Hawaii having "ramosed."

Mr. Philip Rapson Sr., is on a visit to Medicine Hat.

Mr. G. W. Parker an old time rail-roader from Oshawa, Ont., is the general and very popular Post Master of Wainwright. Post Office. He is in charge of the Alberta government service all these days in doing a thriving business handling farm implements, buggies, etc. He promptly dispatches any correspondence letter to the view weekly.

## Surpassing in Power - Superb in Appointments

Power, or the lack of it, makes or mars an automobile. Power gives satisfaction, the lack of it, annoyance. Canadian hills and highways are easily negotiated on high gear with the reserve power of the McLaughlin valve-in-head motor. This is due to the Valve-in-head principle of the McLaughlin motor construction, which develops from 15 to 25% more power than motors of other type of the same bore and stroke. In all the essential qualities of a good motor car—body construction, mechanical efficiency and appointments—the McLaughlin is equal to the best. In power it stands alone. The New Series McLaughlin cars include 4 and 6 cylinder models in Touring, Roadster and Sedan types, at prices ranging from \$400 to \$2050, a new 60 H.P. 6 cylinder 7 passenger McLaughlin at \$1900. Send for our new catalogue "B" describing our complete line.

Canada's Standard Car

A large number from this and the Cormanor districts attended the funeral of the late Walter Smith at Wainwright on Saturday. Services were held in the L.O.O.F. Hall, Rev. Father McElroy of Medicine Hat officiating.

A steady rain-fall occurred last night.

Mr. Theo. Rapson, Mr. Wilbur Smith and Mr. Phil Rapson, Sr., were Bow Island visitors from this district last week.

Mr. Robert Bresmer, with his fine big auto leaves today to advertise the Medicine Hat newspaper. He has been employed at \$15 per day to cover the district east of Medicine Hat as far as Maple Creek.

Your correspondent phoned school Inspector Gorman from Wainwright urging him to pay our school an official visit this time. He said he could try.

Miss Laura Johnson, Miss Lily Johnson and Master Otto Jack Higgins motored here with a break down Sunday night while out motoring.

## Hymeneal.

Mr. A. H. Murray of Wainwright, Alta., was united in marriage to Miss E. B. Holes, also of Wainwright, by Rev. J. W. Morrow, at Medicine Hat, June 7th. Medicine Hat News.

The marriage was solemnized on Monday at Wesley parsonage of Mrs. Anna Holes and Mr. Michael Edward Bakka, both of Pleasant View, Alta. Rev. G. H. Chabbe performing the ceremony. Mr. and Mrs. Bakka will reside at Pleasant View, where the groom owns a store and a farm. —Lethbridge Herald.

Every home in Medicine Hat besides the hotels and rooming houses will be thrown open to the visitors to the Stampede on July 10-11-12-13. In addition to this accommodation, the Stampede committee has secured 3,000 beds and bedding for them to be put up in schools, churches and other large buildings to accommodate the 30,000 people who are expected.

The big prizes offered for the Stampede contests, for the horse races, the baseball tournament and the night street Carnival are attracting competitors from all over America, so that the show will certainly be the biggest and best four day event ever staged in the West.

Cheap rates have been secured on all railways to Medicine Hat with exceedingly cheap rates on certain excursion days.

## Local and General.

Bow Island devotes July 2nd to the Red Cross.

Watch next week's local for sale of hats at Mrs. Bruce's.—Advt.

Look for Mrs. F. C. McLane's millinery advt. in this issue. It's to your interest.

Donald Showalter won the free pass to the "Shielding Shadow" at the movies last week.

Before sending away call and see Mrs. Bruce's fine line of children's dainty white dresses, also gingham of all sizes and colors.—Advt.

H. Norden of Pleasant View was a visitor in town on Tuesday. He brought the welcome intelligence that the crops in his district are looking good.

Just arrived—fresh stock of Ladies' Georgette and Crepe de chine blouses and collars. The best procurable anywhere. Reasonable prices.—Mrs. Bruce.—Advt.

A. Swennumson spent a week touring through North Dakota recently. After thorough investigation, he believes the Bow Island district "has them all beaten."

The Catholic Ladies' Altar Society will meet on Wednesday, June 20th, at Mrs. Albert Goodyear's. Members are particularly requested to note the change of day.

The ladies of Conquererville Church will give a concert and entertainment at Conquererville School-house on Friday, the 29th of June, at 8 p.m. Everybody Welcome.—Advt.

McLaughlin cars have been purchased during the past week from Wilnot & Henderson by—Theo. Thompson and D. M. Garrison of Bow Island and D. Fisher and J. Flett of Winnifred.

At Wesley Methodist Church, Calgary, on Monday, June 11th, at 2 p.m., Mr. C. S. B. Lait, of the Union Bank, Grassy Lake, was united in marriage to Miss Elizabeth Gibson of Bow Island. Rev. C. Bishop performed the ceremony.

The members of Sowell Camp M.W.A., have arranged for a big celebration on the north half of 10-8-10 on July 11th. A full program of sports, including a baseball tournament for a purse of \$50.00, should furnish an excellent day's enjoyment.

The new elevator being erected here by the Home Grain Co. is making fast progress. The capacity, we understand, will be 35,000. In addition to this, we hear that the Alberta Pacific Elevator Co. is contemplating enlarging theirs by 20,000 bushels. There is also a rumor that the National Elevator Co. is scheduled to build here.

The celebration in Bow Island will be the best it is possible to arrange. Ball games, auto parade and races of all kinds will help to keep the huge crowd amused throughout the day, and the knowledge that the proceeds are to be donated to the Red Cross will furnish the holiday-makers with a very reasonable excuse for the spending of their money at the various refreshment stalls to be run by the ladies.

The regular meeting of the Women's Institute of Bow Island will be held at the home of Mrs. James N. Gibson, south of town, on Saturday, June 16, at 3 p.m. All ladies driving cars will please make early arrangements with those whom they will take, to avoid confusion. Program: Ball Call. Recipes for summer drinks. Please hand in written ideas on our annual Fair and why we should exhibit.—Secretary.

Bow Island celebrates July 2

## GRAY DORT

### Built for the Business Farmer

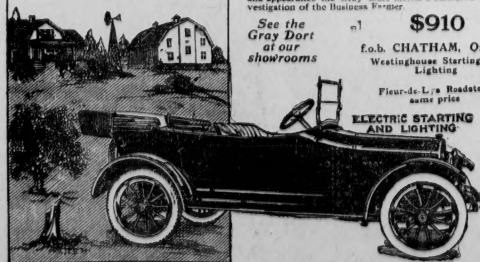

The Gray Dort was built for the business farmer. For 63 years Gray has been building farm vehicles. He knew what the farmer wanted for vehicles and what he needed in an automobile.

If an automobile is going to be a business asset to the farmer he must be able to use it every day in the year; when the roads are deep with snow; when the temperature is far below zero; and again in the spring when the frost is coming out of the ground and the mud is so deep and thick that the average car will sink to the hubs and be hopelessly mired.

The Gray Dort is built for these conditions. It is a real farmer's automobile. The price, \$910 puts it within the reach of every business farmer. Its light weight insures low cost of operation.

From every standpoint of mechanical excellence and appearance the Gray Dort merits a careful investigation of the business farmer.

See the Gray Dort at our showrooms
